Our Services

CCTV IP Cameras

We can supply analogue, hybrid, and IP CCTVs. You may select the one that works best for your UAE-based company. Our experts will walk you through the process and help you resolve any issues that arise.

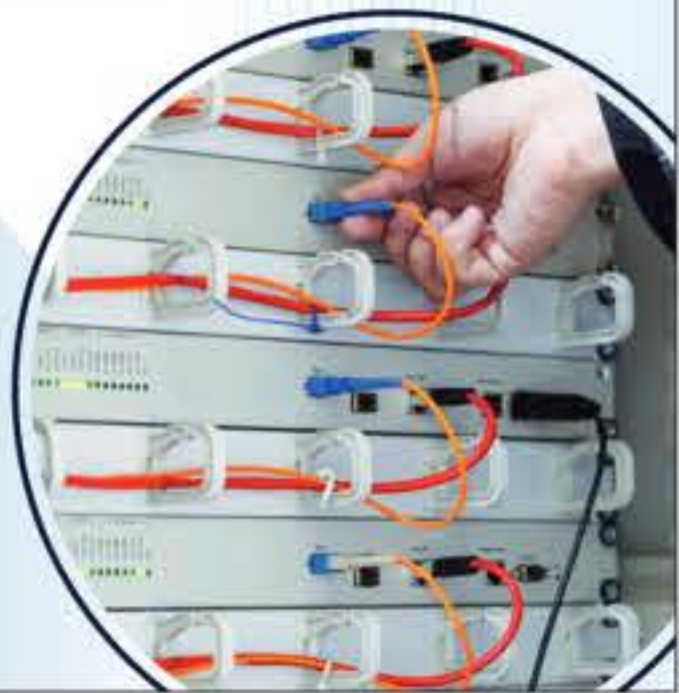

PABX Key Systems

We offers one of the best PABX systems in the UAE. With our PABX Telephone Infrastructure, you may easily link your complete office's communications system. PABX can provide comprehensive solutions for your business.

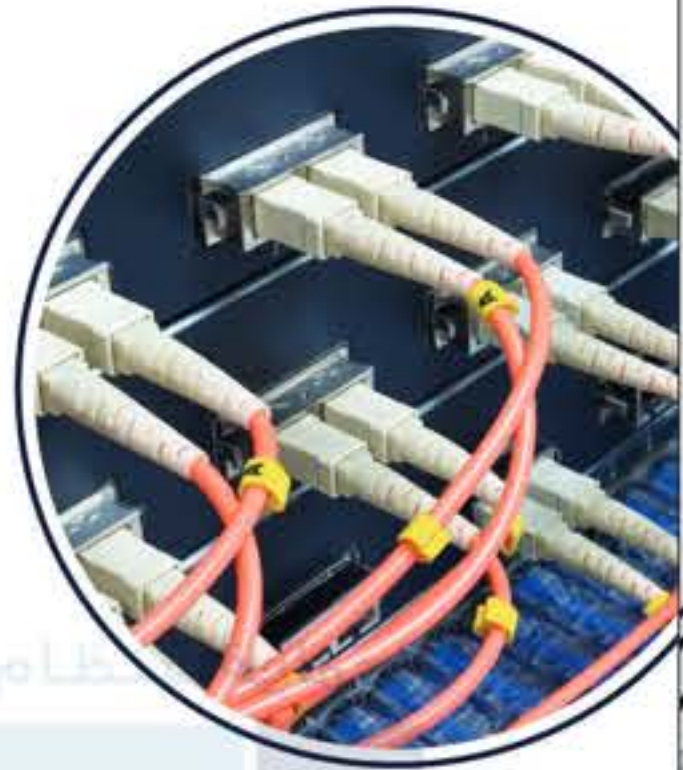

Fiber Optics Solutions (FTTH)

We provide fiber optic solutions in the United Arab Emirates. Our skilled team members have worked on a variety of projects in the UAE, including structured cabling and network cabling.

Networking/Structured Cabling

We provide fiber optic solutions in the United Arab Emirates. Our skilled team members have worked on a variety of projects in the UAE, including structured cabling and network cabling.

Automatic Gate Barrier

When it comes to parking barriers and gate arm barriers, our firm blends high-quality electronic components to provide clients with the finest solutions. We provide a wide range of the top items on the market to our consumers.

Parking Management

Vehicle parking in the private parking lot is authorized by a gate barriers system. It not only protects the automobiles in the parking lot, but lowers the operational costs for human resources. We are one of leading parking gate providers.

Access Control

It is essential to have a perfect and effective access control system in place to ensure workplace safety and security. You may take your business to the next level by implementing this cutting-edge technology. It boosts your company's professionalism while also increasing security.

Security Systems

For a variety of reasons, every business demands a faultless security and monitoring system. They play an important role in everything from assuring employee performance to guaranteeing safety.

Desktop Products & Support

Desktop computers and laptop PCs are essential components of any workplace. A well-performing computer is required for any firm or person to carry out critical duties. Al Himaya Smart Systems sells and services desktop computers and laptop computers, as well as a variety of other items.

IT Support & Internet Security

As networking technologies improve, the steps to be taken to ensure data security become a big responsibility for the business. Several international security concerns must be avoided by implementing a high-security solution with the assistance of competent suppliers.
